Mysore, Aug. 16- Students of Electronics and Communication Engineering and Industrial and Production Engineering of Sri Jayachamarajendra College of Engineering (SJCE) have bagged two prizes at the Partnership for the Advancement of Collaborative Excellence (PACE) annual forum held at Shanghai in China.

The students have won the prizes for their projects — Collaborative Innovative Challenge (CIC) and Sustainable Urban Transport- II phase. They had made the presentation between July 22 and 27 at Shanghai.

A total of six teams out of 31 Universities worldwide had participated in this PACE competition and each team's works were judged based on four criteria namely Product Engineering, Market Research, Manufacturing Research and Design.

The 6th semester Electronics and Communication students who presented their works on "Road Rating System and Implementation of Car Health Monitoring sub-system for the SUT Proposed Vehicle of 2025" are Anshuman, C.R. Ashwin, Mohammed Safwan, S. Sahas, K. Sanjay and S. Suhasini. They were guided by Dr. C.R.Venugopal, Professor and HoD, Electronics and Communication Engineering, SJCE. They bagged the 2nd prize and were awarded with a trophy.

The 8th semester students of Industrial and Production Engineering who presented their works on PACE Global Project-Collaboration and Innovative Challenge (CIC) titled "Energy Reclamation Application" are Vidhey V.Rao, Vaishnavi Seetharama, B.R.Sripriya and J.K.Vinutha. They were guided by Dr. V. Ramesh, Professor, Dept. of Industrial and Production Engineering, SJCE. They bagged the first prize for their work and were awarded with a plaque.

Dr. B.G. Sangameshwara, Principal, SJCE, in a press release has said that this is a constant achievement by the students of SJCE and congratulated the students and PACE team for their challenging efforts.

The awards were received by Dr. V. Ramesh and Prof. Basavaraj along with the students in Shanghai.
